Experience

Java Developer
Pegasus Technologies & Software Pvt. Ltd.
08/2024 Nagpur, India

- Developed and maintained Java web applications using Java, Spring Boot, Spring MVC, Spring Data JPA and MySQL.
- Developed REST APIs with request validation, business logic, database operations and exception handling.
- Applied layered architecture using Controller, Service, Repository, Entity and DTO components.
- Worked with microservices architecture concepts, including service separation and REST-based communication.
- Implemented CRUD operations, JPA/Hibernate mappings, SQL queries and application business rules.
- Tested APIs using Postman, debugged defects and supported application maintenance.
- Used Git, GitHub and Maven for version control, builds and dependency management.

Projects

ZeroWaste – Food Donation Platform
Freelance Client Project
04/2025 – 05/2025

- Developed a food donation platform using Spring Boot, REST APIs, React.js and database persistence.
- Implemented Spring Security, JWT authentication, BCrypt and role-based authorization.
- Built multi-item donation, pickup management, review, submission and donation history workflows.
- Added DTO validation, global exception handling, donation statuses and ownership checks.

ShopEase – E-Commerce Platform
Freelance Client Project
03/2026 – 05/2026

- Developed an e-commerce application using Java, Spring Boot, JSP, Bootstrap, JavaScript and MySQL.
- Implemented product browsing, category filtering, cart, wishlist, checkout and order placement.
- Structured backend functionality using Spring MVC, Spring Data JPA and Controller-Service-Repository layers.

Professional Summary

Java Developer with 2 years of experience developing and maintaining web applications using Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, and MySQL. Experienced in layered architecture, API development, database integration, validation, exception handling, debugging, and Git-based development. Hands-on experience with Microservices, Apache Kafka, Redis, Spring Security, and JWT-based authentication.

Education

B.E. Mechanical Engineering
Anjuman College of Engineering and Technology
2017 – 2020 Nagpur, India

Diploma in Mechanical Engineering
Anjuman Polytechnic
2014 – 2017 Nagpur, India

Technical Skills

Programming
Java, SQL

Backend Technologies
Spring Boot, Spring MVC, REST APIs, Spring Data JPA, Hibernate

Architecture
Microservices, MVC, Layered Architecture

Security
Spring Security, JWT, BCrypt, RBAC

Messaging & Caching
Apache Kafka, Redis

Frontend Technologies
HTML, CSS, JavaScript, JSP, React.js

Databases
MySQL, Oracle, MongoDB, H2

Tools
Git, GitHub, Maven, Postman, Swagger

Testing
JUnit, Mockito, Unit Testing, Integration Testing

DevOps
Docker, Docker Compose, Jenkins, GitHub Actions
